## Motion for Dismissal of Justices, Congressmen & Senators

Plaintiff, Curtis J. Neeley Jr., thanks Honorable Timothy L. Brooks for NOT protecting OBSCENE & INDECENT exhibit images like this United States Court for the Western District of Arkansas has done in the past. This dishonorable past is described more fully in the concurrently filed Supporting Brief pursuant to Local Rule 7.2. This United States Court for the Western District of Arkansas may finally be part of the United States government beginning to correct the obvious judicial mistakes propagating since *Reno v ACLU*, (1997). This mistake created the hazardous nuisance of freely distributed pornography disguised as a “[*holy*] *new medium*” for free speech. This judicial mistake disguised the archaic wire medium as [sic] “internet” and clearly confused online connectivity providers with search engines and “*immorally*” excused GOOG, MSFT, et al from punishment for trafficking pornography collected from others. Justices remaining beyond age seventy TODAY remain “*during bad behavior*” and all Congressmen and Senators who fail to protect the moral rights of authors “*for a time*” are violating their oaths of office. This litigation is far too important for protecting morality of the entire United States to address judicial senescence because the “[*holy*] *new medium for world-wide communications*” will finally reach world-wide after made as safe as wire communications were in 1986. This Plaintiff moves this court to dismiss all judicial, congressional, and Senate Defendants or all parties not on Dkt. #14 exhibit #1 or like above because this makes the claim clearly warrant partial summary justice.

The Western District of Arkansas has far too many cases for timely consideration. This motion is an honorable attempt to save time though remaining just because this issue is a matter of organized criminal enterprises violating communication laws allowed by the F.C.C. and U.S. A.G.
